*Fall/Winter 2020 Issue*

## ANNOUNCEMENTS

- The city is offering residents free smoke and carbon monoxide alarms, while supplies last. The fire department will also come and install at your home for free and complete a free in-home safety inspection, if requested. Contact 248.656.4717 or [fireprevention@rochesterhills.org](mailto:fireprevention@rochesterhills.org) if you are interested
- Rochester Hills now offers two free tree planting programs each fall and spring. The newest program provides free 2 – 3’ trees for homeowners to plant themselves, but tree supplies are limited (sold out in 48 hours this year). Keep an eye out for the spring announcement if you’re interested in either program!
- The Fire Department would like to ask residents when putting up holiday decorations, please make sure you don’t block your address so that emergency personnel can find your home if needed

## UPDATES

- Our last family event of the year, The Little Donut Factory food truck, was a great success. 73 homes attended and neighbors were able to catch up while social-distancing. Thank you to HOA VP Evie Charboneau for the wonderful idea and planning of the event!
- Due to the current Covid status in our area, all events for the rest of the year have been canceled, including the holiday progressive and luminaries. We look forward to a big celebration next year!
- The center front island and additional courts/commons areas will be professionally updated in Spring 2021

## REMINDERS

- The leaves have fallen and winter is coming – don’t forget to complete your fall clean-up! As always, burning leaves and other yard waste for disposal is prohibited in Rochester Hills by city ordinance.
- The snow will be falling soon – did you know it is against the law (listed in the motor vehicle code) to push snow from private property into the street or across the street into your neighbor’s yard? Please remind contractors who plow driveways to keep your snow on your own property.

## KEY DATES

**All 2020 Events Canceled – Stay Tuned!**
